Program Chairman:  
Pete Vercouteren  
920-923-4077

Young Eagle  
Coordinator:  
Jerry Paveglia  
920-922-3477

## July Meeting Recap

**Joe Norris** head of Homebuilders at EAA was our program speaker in July. He offered comments from headquarters re and gave us all some advice on a variety of subjects. I found out that I will be required to test fly my RV12 for at least 25 hours. The actual minimum is 5 hours. Be sure to check out the homebuilder webinar updates and get signed up to watch. I have done this and they are really informative and easy to set up. The new homebuilders area is the old NASA location.

**Member Survey**....More to come soon on our survey. We will be asking a few additional questions and want to hear your input.

**Builder Updates**....Gary Hilbert was present to give us a pretty good update on his project. Keith, Trace, and Doug also gave brief updates. Lots of information and more projects than we realized.

## Airventure

### A Brief Update

The final count was 447 for Transient Parking planes and 290 for Camping Planes. What a terrific job by our volunteers of handling all those arrivals under such adverse conditions. **We are having a wind-down picnic at the airport terminal on Monday, Aug. 9 at 5:30.** All volunteers and chapter members are invited to come and enjoy the food and some social time. The Chapter meeting will follow at 7PM. Everyone is invited to stay if they would like to.

Pete

Chairman,

Fond du Lac Flight Line Operations

## MONDAY AGENDA

**Volunteer Picnic**...please attend this coming Monday at 5:30 at the terminal. All volunteers and members should come and enjoy the food and friendship.

**August Program**... None planned but I am sure we will have several updates and stories from our volunteers and members. I can think of a few myself.

**Builder Updates**....As time allows. We hope all current or future builders will come and discuss their projects. Several members have projects going. They are Bud Plummer-Sonex, Doug Hankwitz-Sonex, Trace Blakely-RV7, Keith Lee RV12, and Gary Hilbert-Lancair. If there are other kits I have missed please get me up to date. **If you have a fairly new email address we also need that for our file.**

**Airventure Volunteers**... We can't say enough about the high turnout of volunteers this year and the success we achieved in welcoming our visitors and supporting airport operations. Thanks to all of you!!
